- 27 Carillon Park

*The Empire State Trail,
a continuous 750-mile route from
New York City to Canada and Buffalo to Albany,
is the longest multi-use state trail in the nation.*

*A public path along the historic river
flowing through the heart of Ticonderoga.
The Interpretive Trail celebrates the
extraordinary variety of industries that
clustered around the waterfalls and rapids
that punctuate the river's course through town.*
